A. INTRODUCTION

Welcome to the Medical Data Manager (MDM) web application! MDM allows for submission tracking and data quality management of Medical Data transaction information.

MDM provides users the ability to:

- Monitor status of medical submissions
- View and/or export editing and validation results in various formats
- Search and view medical transactions and histories

This guide will provide an overview of the functions available to carriers within MDM and helpful hints for using the application. It is recommended that the user read this entire document before using MDM.

B. SYSTEM REQUIREMENTS

Users of the Medical Data Manager must have access to the internet.

C. PRIVACY AND SECURITY STATEMENT

Carriers may view the DCRB/PCRB *Privacy and Security Statement* within the application. The login screen for the **Application Login** contains a **Privacy** link that will provide access to the *Privacy and Security Statement*.

D. ACCESSING MEDICAL DATA MANAGER

The Medical Data Manager is located within the Application Login area of the PCRB/DCRB website. The Application Login provides access to all of the secured applications and data on the DCRB/PCRB website.

The direct website for the Application Login is: <https://www.pcrbdata.com/ul>. The Application Login can also be accessed via a link on the DCRB/PCRB homepage, www.pcrb.com or www.dcrb.com.

Registered Carrier Group Users should enter their **User Name** and **Password**. The password field is case-sensitive. You must read the paragraph below these fields and click the **I Agree** button to proceed.

The screenshot shows the PCRB/DCRB Home page. The header includes the PCRB logo and the text 'Pennsylvania Compensation Rating Bureau'. Below the header is a navigation bar with 'PCRB/DCRB Home' and 'Home' links. The main content area features a 'SIGN IN' form. The form has two input fields: 'User Name' and 'Password'. Below these fields is a paragraph of text: 'Click the "I Agree" button to submit your User Name and Password. Doing so acknowledges that you have read and accept the Bureau's "Privacy and Security Statement"(see Privacy) and "Term of Service and Conditions of Use"(see Legal) regarding use of the facilities on this website.' Below the text is an 'I Agree' button. At the bottom of the form are two links: 'First Time User' and 'Forgot Password?'. The footer of the page includes links for 'Legal', 'Privacy', and 'Contact Us', and a copyright notice: 'Copyright © 2003 - 2013 PCRB. All rights reserved.'

If you are not a registered user, click on the **First Time User** link and complete the registration form as a *Carrier Group User*.

Click here for First Time User.

Medical Data Manager is available to those carrier groups (and their designated vendors) who are eligible to report the Medical Data Call. As a Carrier Group User, you may request access to MDM from your Carrier Group Administrator (CGA). Once signed into the Application Login, click on **Request Access > To Application** and select **Medical Data Manager** from the list of available applications. After requesting access, your CGA will be notified and then have the ability to approve/reject your request for access. Contact DCRB/PCRB Central Support if you experience any issues with access to the application.

Once successfully logged in, the user will observe the Application Manager home screen. Select **Medical Data Manager** to launch the application.

E. NAVIGATING MEDICAL DATA MANAGER

MDM was designed with an intuitive user interface that makes it easy to check the status of medical submissions and view medical transactions and histories. This section provides an overview of the interface and explains some rules about navigating in MDM. Each of the individual navigation menus will be described in more detail later.

MDM serves as a companion product to both the Policy Data Manager (PDM) and Unit Data Manager (UDM). If the user has authorization to PDM, UDM and MDM, the user can easily toggle between the three applications. Click on the “POLICY” button to launch PDM or the “UNIT” button to launch UDM. The button is disabled for applications that the user is not authorized for access.

The first screen that appears for all users upon logging into MDM is the 'Quick Find' screen. The user can navigate back to this screen at any time by clicking the home icon as seen above.

Welcome to the Medical Data Manager

To monitor the status of your medical data call files that were submitted via CDX, click on the **Submit** tab on the menu bar, then click **CDX Uploads**.

Navigate to the **Reports** tab to view processing results and to view top error counts.

Users should review the **MDM User's Guide** to learn more about MDM's new functionality and how it can be used to toggle between policy and unit statistical data.

Quick Find

Policy Nbr: Claim Number:

Users can select from various main menu drop downs from any screen.

1. MAIN MENU

MDM features a menu bar that is displayed at the top of the application window. The menu bar is visible regardless of which page is currently displayed.

Home

- Selecting **Home** routes the user back to the Application Manager home screen.

Search

- **Txns** – Retrieve any transactions that exist in MDM. Initiates a search for transactions using any of the criteria entered on the screen and transaction-specific filter criteria can be defined to narrow the search. The transaction details can be accessed from the search results.
- **My List** – Search for active transactions by the current user.
- **Last Processed** – Shows all transactions that were processed in the most recent batch.

Submit

- **Submit File** - Allows the user to select a WCMED file to upload and submit for processing.
- **CDX Uploads** – View prior WCMED submissions uploaded via CDX.

Reports

- **Processing Results** – View the status of the latest transactions processed. The user can download WCMED or WCCRIT files and export the results to Excel.
- **Top Critical Errors** – View a listing of the top critical errors by processed date. The results can be exported to Excel.
- **Aggregate Tracking** – Allows users to view aggregate quality statistics which are refreshed as additional files are received during the same reporting quarter for the carrier group. Upon entry into this option, users may select the **Carrier Group Name**, **State** of PA (Pennsylvania) or DE (Delaware) from the filter menu. Users may also enter the **Reporting Year/Qtr** of interest from the filter menus.
- **Benchmark** – Allows users to view aggregate quality statistics as compared to the industry aggregate quality statistics. The aggregate quality statistics are refreshed as additional files are received during the same reporting quarter for the carrier group. Within this option, the industry is comprised of all carrier groups who are eligible to participate in the Pennsylvania or Delaware Medical Data Call. Upon entry into this option, users may select the **Carrier Group Name**, **State** of PA (Pennsylvania) or DE (Delaware) from the filter. Users may also enter the **Reporting Year/Qtr** of interest from the filter menus.
- **Reports and Files** – Allows users to download reports and files which have been transmitted to their carrier group from the DCRB/PCRB. Users may select a specific File Description or Date Posted for the file by using the filter.
- **WCEMED Stats** – View a listing of all error codes and a count by error. The report can be exported to Excel.
- **Membership** – This allows a user to view the carrier's contact information on file with the DCRB/PCRB.

Help

- **Preferences** – A user can setup their preferences for search results, email reminders and sidebar notes.
- **User Guide** – Routes users to the MDM User Guide.
- **WCEMED Errors** – A listing of WCEMED error codes applicable to PA and DE with the WCMED record type, tolerance and the error message. The report can be exported to Excel.

- **WCIO Records** – A listing of the applicable WCMED Record with their description and minimum record length. The report can be exported to Excel.
- **Email Support** – This selection will generate an email to DCRB/PCRB Central Support from the users email account.

2. QUICK FIND

The Quick Find page allows users to execute a quick search for transactions using policy number. The user can also search for an individual Claim by using the Claim

Number. To navigate to the Quick Find page, click the home icon  above the main menu.

The Quick Find page displays the following search criteria:

- **Policy Nbr** – The user can search for a transaction using an existing policy number.
- **Claim Number** – The user can search for a transaction using an existing claim number.

When the search is executed, all transactions matching the entered criteria will be returned in the results grid and the policy number is a hyperlink that will navigate the user to the details of the transaction selected.

Quick Find

Policy Nbr:

Claim Number:

Find
Clear

Policy History for Policy #1

No matching policies found

F. SEARCHING FOR TRANSACTIONS

The Search page allows users to search and then view medical transactions previously submitted to MDM. Transaction-specific filter criteria can be defined to narrow the search. From the search results, the transaction details can be accessed by selecting the view () icon.

1. SEARCH CRITERIA

The Search page displays fields that allow specific search criteria to be selected. When the search is executed, all transactions matching the criteria will be returned in the search results.

The screenshot shows the 'SEARCH CRITERIA' form in the Medical Data Manager application. The form is organized into three columns: Policy Identifiers, Txn Identifiers, and File Search. Each column contains several input fields for filtering search results. At the bottom, there is a 'Search' button, a 'Clear' button, and a 'Max. Results' dropdown set to 50. A checkbox for 'Show Last Claim/Bill Only' is also present.

Any combination of search criteria can be used together to narrow the search results. Text fields such as Insured Name, City or Policy Number will match records using “contains” logic, i.e. those records that *contain* the letters or words entered—not an *exact* match. To perform a wildcard search, key an asterisk (*) before or after the text you are searching to widen your search results.

The filter criteria that can be selected are:

State – PA or DE can be selected. If left blank the search will look for matching criteria for both states.

Carrier – Select one or more carriers to use in the search.

Policy Number – Enter the policy number. The Policy Number must contain at least three characters.

Policy Effective – Enter or select from the calendar the policy effective date range. Note: To search for a single policy effective date, the same date must be entered in both the 'from' and 'to' date fields. To search for a specific policy effective date and forward leave the 'to' date field blank.

Trans. Date – The search returns transactions that were issued within the date range specified. Note: To search for a single transaction date, the same date must be entered in both the 'from' and 'to' date fields. To search for a specific issued date and forward, leave the 'to' date field blank.

Transaction – The search returns transactions based on the transaction code selected or excluded. Transaction types can be excluded by using the  beside the criteria.

MDM Status – The search returns transactions based on the MDM status selected or excluded. Status types can be excluded by using the  beside the criteria.

Process Date – The search returns transactions that were processed within the date range specified. Note: To search for a single processed date, the same date must be entered in both the 'from' and 'to' date fields. To search for a specific processed date and forward, leave the 'to' date field blank.

Review – The search returns transactions based on the review status selected or excluded. Review types can be excluded by using the  beside the criteria.

MDM User – The search returns transactions that were created or edited by the selected user or users.

WC MED Link – The search returns transactions that match the unique DCRB/PCRB assigned identifier.

Claim Nbr – The search returns transactions that match the claim number entered.

File Number – The search returns transactions where the DCRB/PCRB File Number matches or begins with the value entered.

Insured FEIN – The search returns transactions that match the primary insured FEIN number.

Insured Name – The search returns transactions that match the primary insured name.

City, ST, or ZIP – The search returns transactions that match the primary insured address.

Review Error – The search returns transactions that have produced the selected error(s).

Bill Id – The search returns transactions that match the Bill ID entered.

Max. Results – Specifies the maximum number of results to return, which defaults to 50; but can be increased up to 200, if necessary.

Clear – This will clear all criteria fields to allow new criteria to be entered.

Show Last Claim/Bill Only – This will limit the search results to the most recent Claim/Bill. This checkbox defaults to “checked” for carrier users.

2. SEARCH RESULTS

After search criteria have been entered, select the **Search** button and the search results grid displays all transactions matching the specified criteria.

Search Results - 7 Txns										
<input type="checkbox"/>	ST	Carrier	Policy Number	Eff. Date	Trans. Date	Claim	MDM Status	Processed	Link	Review
<input type="checkbox"/>	DE	15066	170683	1/1/95	8/28/12	007007007: 007007007	 Processed	8/28/12		
<input type="checkbox"/>	DE	15066	170683	1/1/95	8/28/12	007007007: 007007007	 Processed	8/28/12		
<input type="checkbox"/>	DE	15066	170683	1/1/95	8/28/12	007007007: 007007007	 Processed	8/28/12		
<input type="checkbox"/>	DE	15066	170683	1/1/95	8/28/12	007007007: 007007007	 Processed	8/28/12		
<input type="checkbox"/>	DE	15066	170683	1/1/95	8/28/12	007007007: 007007007	 Processed	8/28/12		
<input type="checkbox"/>	DE	15066	170683	1/1/95	8/28/12	007007007: 007007007	 Processed	8/28/12		
<input type="checkbox"/>	DE	15066	170683	1/1/95	8/28/12	007007007: 007007007	 Processed	8/28/12		
Page 1 of 1										Results per page: 20

The bottom left-hand corner displays the grid page numbers. Select the arrows to navigate forward and backward through the results pages.

The bottom right-hand corner displays the results per page. Use the dropdown to display more results on a single page.

Results can be sorted by selecting a column heading; the records will be sorted by the column values in ascending order. To reverse the sort order, select the column heading again.

The search results bar above the grid will display how many records have been returned.

These search results can be customized using the **Preferences** link under the **Help** menu.

Search Results Columns:

ST – The state code reported on the transaction.

Carrier – The NCCI carrier ID reported on the transaction.

Policy Number – The policy number reported on the transaction.

Eff. Date – The policy effective date reported on the transaction.

Trans. Date – The date the transaction was issued.

Claim – The claim number reported on the transaction.

MDM Status – The current MDM status of the transaction.

Processed – The date the transaction was processed.

Link – The unique PCRB/DCRB WCMED Link associated with the transaction.

Review – The current review status of the transaction. The  (*information*) button allows the user to see the errors on the transaction by hovering over the icon. Selecting the information button will open a small window that lists all the errors.

User – The name of the person who last edited the transaction in MDM.

File Nbr – The DCRB/PCRB file number associated with the insured.

3. VIEW TRANSACTION DETAILS

To view transaction details, select the view ( *magnifying glass*) icon.

Search Results - 7 Txns

 Excel  WCMED  WCCRT [Download WCCRTViewer](#)

The available export options are:

a) Excel

To export the search results to Excel select the Excel button. The results (up to 1,000) will be exported to an Excel file that can be opened or saved.

b) WCMED

The user can select one or multiple transactions (up to 200) to download into the WCMED format by checking the checkbox in the far left column and then selecting the WCMED button. A WCMED file will be generated that contains the selected transactions. The file can be saved or opened.

c) **WCCRIT**

The user can select one or multiple transactions (up to 200) to download any applicable errors for the transaction into WCCRIT format by checking the checkbox in the far left column and then selecting the WCCRIT button. A WCCRIT file will be generated that contains the criticisms for the selected transactions. The file can be saved or opened.

G. SUBMISSION TRACKING

To view previously submitted WCMED files through CDX, a user can navigate to the **Submit → CDX Uploads** screen and view the information associated with previously submitted files (if any exist.)

Each unique data submission appears as a row in the Submitted Files grid. The following column headings can be adjusted to narrow down the results:

Timestamp – Date and time the file was received

Carrier - The NCCI number associated with the data file.

Reporting Year/Qtr – The year/quarter reflected in the data file.

File Name - The unique file name given by the data submitter on the file control record.

View ( *magnifying glass*) icon – Displays the transaction associated with each file and the processing information.

#Txns – Number of transactions (records) in the data file.

#Crit – Number of critical edits in the data file.

#Pri – Number of priority edits in the data file.

 (*information button*) – Displays summary data quality edit results for the data file.

Status – Displays the files processing status.

File ID – The unique file ID given by the submitter on the file control record.

If the user does not specify any filtering criteria, then all submissions that the user has access to will be displayed. To view older data files, adjust the **Since** date at the bottom of the screen.

I. TRANSACTION CRITICISM REPORT

Transactions with a Review Status other than Accepted will have a criticism report available. While viewing the Transaction, the user can download any applicable errors for the transaction into WCCRIT format by selecting the **WCCRIT** button or generate a PDF of the criticism letter by selecting the **PDF** button. This will allow a user to view and print all errors that were generated for this transaction.

MDM Review: Accepted With Minor Errors - Further Action May Be Required as of 6/28/19				
Record Type	Lvl	Error Code	Toler.	Error Message
01/Header	-	01178001 b2b687a7	Priority	Missing 1/Medical Data Call - Paid Procedure Code Modifier 1
01/Header	-	01222020 b2b687a7	Priority	Invalid 1/Medical Data Call - Secondary ICDDiagnostic Code: "M79.18"
01/Header	-	01197505 b2b687a7	Conditional	Paid Amount 5 equals Amount Charged by Provider 5.

J. USER PREFERENCES

To change user preferences, go to **Help → Preferences**. This screen allows the user to adjust their settings for search results, defaults, sidebar notes and also email reminders.

To turn sidebar notes off, uncheck the box next to Show Sidebar Notes. To reopen the sidebar notes that were previously marked as "Do not show again", click on Reset Hidden Sidebar Notes.

User Preferences

Columns to show in Search Results:

<input checked="" type="checkbox"/> MDM Status	<input checked="" type="checkbox"/> User
<input checked="" type="checkbox"/> Trans. Date	<input checked="" type="checkbox"/> File Number
<input checked="" type="checkbox"/> Processed Date	<input type="checkbox"/> Insured FEIN
<input checked="" type="checkbox"/> WC MED Link	<input type="checkbox"/> Insured Name
<input checked="" type="checkbox"/> Review	<input type="checkbox"/> Insured City, ST ZIP

☒ **Search - Show Most Recent Only:**

By default, the Search page returns all the Txns for the policies selected, but this option "Show Most Recent Only" causes only the most recent Txn of each policy to be returned. This default can be overridden on the Search page.

☒ **Show Sidebar Notes** Reset hidden Sidebar Notes

Sidebar Notes are shown on many pages to help newer users understand how to use each page; they may be turned off individually on each page or altogether here.

☒ **Email Reminders** to address: (if different from registration)

Periodically, email reminders are sent out to users who have active Txns that need to be completed and submitted or they will be purged after 60 days.
