VIA OVERNIGHT DELIVERY

The Honorable Karen Weldin-Stewart, CIR-ML Insurance Commissioner Department of Insurance State of Delaware 841 Silver Lake Boulevard Dover, DE 19904-2465

Attention: Gene Reed

RE: Correction to Bureau Filing No. 1002 – Exhibit 1a ONLY

Timothy L. Wisecown

Workers Compensation Residual Market Rate and Voluntary Market Loss Cost Filing Proposed Effective December 1, 2010 (Selected Portions Effective June 1, 2011)

Dear Commissioner Weldin-Stewart:

On August 6, 2010 the Delaware Compensation Rating Bureau, Inc. (DCRB) submitted Bureau Filing No. 1002 for your review. Subsequent to that submittal, we discovered that a preliminary version of one of the exhibits, 1a, had inadvertently been included in the filing package. Although the data and indications for the filing are not impacted by this error, we wish to submit the updated, correct version on which the filing was, in fact, based in order to give the Department of Insurance (Department) the most current and comprehensive background for the filing.

Therefore, attached is the corrected Exhibit 1a, which shows the data used to reach the conclusions in Bureau Filing No. 1002.

If the Department has any questions regarding this exhibit or any other aspect of the filing, Bureau staff will be pleased to cooperate with and assist in your ongoing consideration of the filing proposals.

Sincerely,

Timothy L. Wisecarver

President

TLW/kg Enclosure

DELAWARE COMPENSATION RATING BUREAU, INC.

Excess Loss Ratios and Loss Limitations

Page 1 shows a history of excess loss factor revisions since 1981. Also shown are loss limits consistent with an excess loss ratio of 0.0757 for those filings, the 0.0757 ratio corresponding to a loss limit of \$1,500,000 effective with the December 1, 2004 filing when a limited loss approach was first introduced. An exponential curve fit to the loss limitations from 1981 to 2004 showed an average annual change of 6.27% in loss limits which is applicable to policy year December 1, 2004 and prior. An exponential curve fit to the loss limitations from 1981 to 2008 showed an average annual change of 9.65% in loss limits which is applicable to policy years subsequent to December 1, 2004.

Page 2 shows the calculation of loss limits by policy year tied to a limit of \$2,610,000 for policies effective during the twelve months beginning December 1, 2010 and with the underlying annual changes in the loss limit as described above.

All calculations on pages 1 and 2 are made on a pre-Senate Bill 1 basis and indicate that a loss limit of \$2,610,000 is appropriate for the policy period beginning December 1, 2010.

The Bureau developed overall empirical distributions using Delaware data with losses adjusted to both pre-Senate Bill 1 and post-Senate Bill 1 bases. A comparison of these distributions indicated that a pre-Senate Bill 1 loss limit of \$2,610,000 produced an excess loss factor comparable to a post-Senate Bill 1 loss limit of \$2,139,891.

Page 3 shows the calculation of the excess loss ratio consistent with a loss limitation (post-Senate Bill 1) of \$2,139,891 per claim in the current filing. Excess ratios, prior to adjustments for expense and risk load, are weighted with standard premiums by hazard group to get an average excess ratio of 0.0709.

Delaware December 1, 2010 Rate & Loss Cost Filing Loss Limitations for Excess Loss Factor = .0757 All Losses at Pre-Senate Bill 1 Levels

Applicable to policy years beginning 12/1/04 and Earlier
