DCRB Circular #1053

To All Members of the DCRB:

**Re: Resources Available for New Reporting Requirements For Delaware
Indemnity Data Call**

The Delaware Compensation Rating Bureau (DCRB) announces that resources are now available to assist carriers in complying with the new reporting requirement for six additional fields in the Quarterly Record of the Indemnity Data Call, as announced in DCRB Informational Bulletin #015.

The Indemnity Data Call Manual has been republished to include these new reporting requirements for the Delaware Indemnity Data Call. The additional fields are as follows:

- Classification Code
- Return to Work Date
- Zip Code of Injury Site
- Number of Dependents
- Exposure State
- Indemnity Claim Code

Minor housekeeping and editorial changes have also been made, and all changes are highlighted in green within the Manual. The edit matrix and record layout have been updated accordingly. These resources can be found on DCRB's website under [Indemnity](#) in the Data Reporting section.

Changes to the reporting requirements for the Delaware Indemnity Data Call will begin with 4th quarter 2025 transactional data due to DCRB by March 31, 2026. Mandatory testing for all data reporters is required to ensure a smooth transition and must be completed by December 31, 2025.

For any inquiries or clarification regarding these updates, please reach out to Megan Ozlek, Senior Data Analyst, at mozlek@dcrb.com. We appreciate your cooperation in implementing these enhancements to the Delaware Indemnity Data Call reporting process.

William Taylor
President
