

DELAWARE COMPENSATION RATING BUREAU, INC.

Table I - Summary of Financial Call Data

Table I presents premium and loss data which forms the basis for calculating development factors and projecting ratios of actual losses to premiums by policy year. Losses are shown on paid and case incurred (paid plus outstanding, excluding bulk and IBNR) bases split between indemnity and medical.

The data represents a summary of accumulated policy year experience as reported by carriers in the annual Financial Calls for Experience.

COVID-19 claims and large deductible policies are excluded from the Financial Call experience in Table I.

Four sets of development factors are shown, measuring the development from December 31, 2019 to December 31, 2020; December 31, 2020 to December 31, 2021; December 31, 2021 to December 31, 2022; and December 31, 2022 to December 31, 2023. To maximize the use of available data, the companies used in each stage of development are allowed to be independent of those used in other stages of development; therefore, the figures shown for a given valuation date may vary for purposes of comparison to the prior and subsequent points.

Table I - Pages 1-6 - Reported Data

The data on pages 1-6 represent the experience as reported by the carriers. Consequently, the 12/31/17 and later valuations of losses reflect the impact of changes legislated by Senate Bill 1 of 2007, Senate Bill 238 of 2012, House Bill 175 of 2013 and House Bill 373 of 2014.

Table I - Pages 7-40 - Adjustments to reflect Senate Bill 1, Senate Bill 238, House Bill 175 and House Bill 373 medical savings

In order to analyze the loss development patterns suggested by the financial data, law adjustment factors are developed for the medical paid losses, medical incurred losses, and medical loss development factors to put all policy years on a consistent basis with regard to benefit levels. All medical payments and reserves were adjusted to a post-House Bill 373 benefit level. That is, they reflect benefit levels after the effects of Senate Bill 1, Senate Bill 238, House Bill 175 and House Bill 373. Pages 7-40 show the adjustments to bring medical losses to post-House Bill 373 levels for Calendar Years 2007-2023, respectively.

Staff's adjustments of medical payments to reflect the impact of House Bill 373 are assumed to be effective immediately after payments are made. Case reserve levels are adjusted to reflect the impacts of the percentages in the legislation for each respective medical fee schedule change. Each reserve level change is distributed evenly over a 36-month period, beginning from the effective dates of the medical fee schedule changes in 2015 through 2017.

Table I - Pages 41-46 - Adjusted to Post-House Bill 373 levels

Pages 41-46 reflect the adjustment to medical costs to bring all data to a post-House Bill 373 level. This data was the basis for all subsequent loss development and trend analysis.
