

DELAWARE COMPENSATION RATING BUREAU, INC.

Excess Loss Ratios and Loss Limitations

Page 1 shows a history of loss limits consistent with an excess loss ratio of 0.0757 for excess loss factor revisions since 1983, the 0.0757 ratio corresponding to a loss limit of \$1,043,461 effective with the December 1, 2004 filing when a limited loss approach was first introduced.

An average annual change of 2.56% was selected for Policy Years 2017 and subsequent using an exponential curve fit based on a five-year average of loss limits.

Previously, an average annual change of 4.61% was selected for Policy Years 2005 through 2016 and an average annual change of 6.27% was selected for Policy Years 2004 and prior.

Page 2 shows the calculation of loss limits by policy year with the underlying annual changes in the loss limit as described above.

Page 3 shows the calculation of the excess loss ratio consistent with a loss limitation of \$1,885,210 per claim in the current filing. Excess ratios, prior to adjustments for expense and risk load, are weighted with standard premiums by hazard group to get an average excess ratio of 0.0579.

All calculations in this exhibit are made on a post-House Bill 373 basis.

**Delaware December 1, 2024 Rate & Loss Cost Filing
 Loss Limitations for Excess Loss Factor = 0.0757
 All Losses at Post-HB373 Levels**
